Flying Carpet is an Online General Sales Travel Agency platform to book travel to all the magical destinations served by our 70+ partner airlines, conceptualized and created by the founders of AirlinePros International. It is a global platform, which gives an opportunity to showcase some of the most beautiful places and peoples on earth to the travelling public so that they can create unforgettable experiences for themselves. While the platform offers consumers a whole new world of dazzling places to visit and experience, it is also business-focused to add value to our client airlines in terms of additional revenues and lower costs, to the travel agent community, and start-ups with new business opportunities.
