

EXPANDING DISTRIBUTION OPPORTUNITIES FOR AGENTS IN SA

AirlinePros is proudly working with Euroairlines (Q4) in the South African market, making more than **30 airline brands, rail routes, and non-air travel products** easier to book via travel advisors' preferred **GDS**. Euroairlines is an air distributor and validating plate for airlines that are not in the BSP of certain countries. Broaden your reach with Euroairlines' distribution model, which enables agents to book the same fares offered directly by participating airlines, with clear booking **terms and conditions**.

Euroairlines' global network is also growing, with more content, cargo, and freight services, rail, and airline partners being onboarded. Access all of this in your usual GDS - and earn better margins through **transparent pricing**. Plus, Euroairlines offers support for **changes, re-issues, and groups**, backed by AirlinePros South Africa.

Code-share airlines appear in the GDS as **Q4-129**, including **Star Peru, American Jet, Cubana, Paranair, Viva Aerobus, Mexicana, Aeroregional, and AirCentury**. Interline airlines appear in the GDS with the company code **BUT** are issued with Euroairlines' **Q4** plate. These participating carriers include **Cubana, GOOL, Azul, Sunrise Airways, Paranair, and Surinam Airways**. For Europe and Africa, see the slide in Agent's Corner below.

Euroairlines also works with **tour operators** like **BlockSpace**.

INTERLINE airlines
They appear in the GDS with the company code and are issued with the Q4 plate

Airlines shown: AIRCARGO, Air Sierra Leone, AWA, air zimbabwe, BEOND, Kam Air, Ethiopian, Precision Air, sata, RwandAir, QATAR, AccesRail, iryo.

How to QUOTE fares with Q4 as a validating company?

AMADEUS

- Once you have selected a flight in **AMADEUS**, choose the price (or the best price) with the following command: **FXA or FXB or FXP/R,UP,VC-Q4**
- Once you have selected a flight in **GALILEO**, choose the price (or the best price) with the following command: **FO/CQ4 or FOBB/CQ4**
- Once you have selected a flight in **SABRE**, choose the price with the following command: **WPAQ4**
- Once you have selected a flight in **WORLDSPAN**, choose the price with the following command: **4P^CQ4**

How to ISSUE with Q4 as a validating company?

AMADEUS

- It is issued with the following command: **TTP/V^Q4**
- Once you have selected a flight in **GALILEO**, choose the price (or the best price) with the following command: **TKP VI/CQ4**
- Once you have selected a flight in **SABRE**, choose the price with the following command: **WPAQ4**
- Once you have selected a flight in **WORLDSPAN**, choose the price with the following command: **TTP/V^Q4EZE or EZE#CQ4**

AGENT'S CORNER

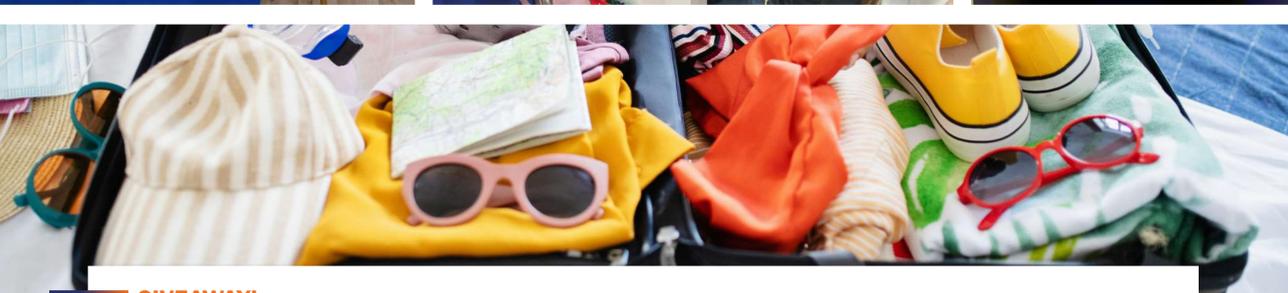

- Trusting an unfamiliar airline can be challenging—especially when dealing with intermediaries and complex payment systems. The **Euroairlines model** connects participating airlines and agencies around the world through all **GDSs** using **Euroairlines' Q4-291** code. Benefit from **competitive pricing** on par with direct channels and clear **terms and conditions**.
- For any changes to a schedule or the days in the PNR, agents must re-issue the ticket.
- Agents can quote fares with **Q4** as a validating company (see above).
- NEW PRODUCT!** Euroairlines has added inventory from **AccessRail**, with current routes available in **Spain and Italy**. Agents can use the same entries that they would when issuing a ticket to quote and issue train travel with **9B** and **Q4** in their GDS.
- By including both flight and rail segments in the same booking and issuing it as a regular flight ticket, agents can **earn commission on both the rail and air segments**.
- AirlinePros South Africa** has recorded informative training webinars. Please reach out for access or for any product and booking-related queries.
